

High Technology Development Corporation Manufacturing Extension Partnership

About the MEP Program

- Federally funded through US Department of Commerce, National Institute of Standards and Technology.
- There are 59 Centers with at least one in all 50 states.

800.MEP.4MFG www.mep.nist.gov

- The MEP Center in Hawaii is hosted by the State of Hawaii's High Technology Development Corporation (HTDC).

MISSION

- HTDC-MEP delivers a Federal program, working side by side with small to medium size Hawaii manufacturers to strengthen themselves to become more profitable in global markets.

When You Succeed, We Succeed

- NIST sponsors a national survey conducted by an independent third party that quarterly collects data from center clients on the business impacts of the services provided by their local center.

HTDC-MEP Strategic Partners

- Hawaii Food Manufacturers Association
- Chamber of Commerce of Hawaii
- Hawaii Export Assistance Center
- Hawaii Technology Development Venture
- Service Corp of Retired Executives (SCORE)
- Hawaii Department of Agriculture, Market Development Branch
